Yong Min Choi

최용민 (崔容敏)

E-mail	yong.min.choi@dartmouth.edu
Phone	+01 614 390 7022
Website	https://yongminchoi93.github.io
Current Affiliation	Dartmouth College (https://sites.dartmouth.edu/stoermerlab/)

• Work Experiences

2025 Aug -

Post-doctoral Research Associate
Dartmouth College, Hanover, New Hampshire, USA
Dept of Psychological and Brain Sciences

Advisor: Dr. Viola S. Störmer

• Educations

2020 - 2025

The Ohio State University, Columbus, Ohio, USA
Ph.D. in Cognitive Neuroscience, Dept of Psychology
M.S. in Cognitive Neuroscience, Dept of Psychology

Advisor: Dr. Julie D. Golomb

2018 - 2020

Yonsei University, Seoul, South Korea
M.S. in Cognitive Science, Dept of Psychology

Advisor: Dr. Sang Chul Chong

2012 - 2018

Yonsei University, Seoul, South Korea
B.A in Psychology (Joint major in Cognitive Science)

Advisor: Dr. Sang Chul Chong

- **Invited Talks**

Choi, Y. M. (Mar 2026, *In-person*). The Multisensory Brain: Spatial Integration and Neural Architecture. *Science and Art of Human-AI Systems Lab (SAHAS Lab; PI: Dr. Nikhil Singh), Computer Science Department, Dartmouth College, New Hampshire, USA.*

Choi, Y. M. (Dec 2025, *In-person*). Human Visual Perception Across Eye Movements: Predictive Remapping of Receptive Fields. *Department of Psychology, Chungbuk National University, South Korea.*

Choi. Y. M. (Jun 2025, *In-person*) Through the Eyes of the Brain: Receptive Field Remapping in the Human Visual Cortex. *CCBS Undergraduate Summer Institute, The Ohio State University, Ohio, USA.*

Choi, Y. M. (Apr 2025, *virtual*). Through the Eyes of the Brain: Maintaining stable visual perception across saccadic eye movements. *Joint Lab Meeting at Dartmouth College (Principle investigators: Dr. Viola Störmer, Dr. Caroline Robertson, and Dr. Brad Duchaine), Hanover, New Hampshire, USA.*

Choi, Y. M. (Mar 2025, *In-person*). Through the Eyes of the Brain: Receptive Field Remapping in the Human Visual Cortex. *2025 Midwest Regional Conference (MRC), Urbana, Illinois, USA.*

Choi, Y. M. (Aug 2024). Visual perception and saccadic eye movements: perceptual impairment and stability mechanisms. *Vision and Perception Neuroscience Lab (PI: Dr. Kalanit Grill-Spector), Stanford University, CA, USA. (Virtual)*

Choi, Y. M. (Jun 2024). Visual perception and saccadic eye movements: perceptual impairment and stability mechanisms. *Laboratory of Brain and Cognition (PI: Dr. Chris Baker), National Institute of Mental Health, MD, USA. (Virtual)*

- **Conference Talk Presentations**

Choi, Y. M. & Golomb, J. D. (May 2025). Voxel-wise predictive encoding models reveal evidence for pre-saccadic remapping in the human visual cortex. *the Vision Sciences Society annual conference* in Florida, USA.

Choi, Y. M., Chiu. T. Y., Golomb, J. D. (May 2024). Behavioral and neural correlates of impaired scene perception following saccadic eye movements. *the Vision Sciences Society annual conference* in Florida, USA.

Choi, Y. M., Chiu. T. Y., Golomb, J. D. (Nov 2023). Behavioral and neural correlates of impaired scene perception following saccadic eye movements. *Center for Cognitive and Behavioral Brain Imaging research day*, 2023, Columbus, Ohio, USA.

Choi, Y. M. & Golomb, J.D. (April 2022). Department of psychology Spring Graduate Student Research Forum.

Choi, Y. M., Cho, J. E., & Chong, S. C. (July 2021). Interaction between current perception and recent multi-feature ensemble representations depending on task-relevance. *the Korean Society for Cognitive and Biological Psychology*.

Choi, Y. M., Cho, J. E., & Chong, S. C. (June 2021). Task-irrelevant statistical ensemble memory of a scene affects current perception. *the Virtual Working Memory Symposium*.

Choi, Y. M., Park, H. S. (May 2016). The effect of sleep on the type of memory associated with a traumatic event. *The Korean Society for Cognitive Science Annual Spring Conference*.

- ## Conference Poster Presentations

Choi, Y. M., Störmer, V. (May 2026). Sustained Auditory Spatial Attention Facilitates Visual Processing. *the Vision Sciences Society annual conference* in Florida, USA.

Choi, Y. M., Golomb, J. D. (Dec 2025). Voxel-Wise Predictive Encoding Models Reveal Evidence for Pre-Saccadic Remapping in the Human Visual Cortex. *Society for Neuroscience,* San Diego, California, USA.

Choi, Y. M., Golomb, J. D. (Dec 2024). Voxel-Wise Predictive Encoding Models Reveal Evidence for Pre-Saccadic Remapping in the Human Visual Cortex. *Center for Cognitive and Behavioral Brain Imaging research day,* Columbus, Ohio, USA.

Choi, Y.M., Chiu. T. Y., Golomb, J. D.(Jun 2024). Behavioral and neural correlates of impaired scene perception following saccadic eye movements. *Organization for Human Brain Mapping, 2024,* Seoul, Republic of Korea.

Choi, Y.M., Chiu. T. Y., Golomb, J. D.(Nov 2023). Behavioral and neural correlates of impaired scene perception following saccadic eye movements. *The Society for Neuroscience,* Washington, D.C., USA.

Choi, Y.M., Chiu. T. Y., Golomb, J. D.(May 2023). Post-saccadic impairement of scene perception. *the Vision Sciences Society annual conference* in Florida, USA.

Choi, Y.M., Chiu. T. Y., Golomb, J. D.(Feb 2023). Exploring Scene Perception Following Saccadic Eye Movements. *Edward F. Hayes Advanced Research Forum* in The Ohio State University, Ohio, USA.

Choi, Y.M., Golomb, J. D.(Nov 2022). Stimulus regularities help protect visual perception from peri-saccadic impairment. *OPAM* in Boston, USA.

Choi, Y.M., Golomb, J. D.(May 2022). The effect of stimulus regularity on peri-saccadic perception. *the Vision Sciences Society annual conference* in Florida, USA.

Choi, Y.M., Golomb, J. D.(June 2021). Does average size of an ensemble bias individual size representations during perception or working memory retention?. *the Virtual-Vision Sciences Society annual conference.*

Choi, Y.M., Chong, S. C. (June 2020). The effect of holding multi-feature ensemble in visual working memory on perception. *the Virtual-Vision Sciences Society annual conference.*

Choi, Y.M., Chong, S. C. (May 2019). Attending to individual size modulates mean size computation. *the Vision Sciences Society annual conference* in Florida, USA.

Choi, Y.M., Chong, S. C. (Feb 2019). Effect of attention on individual size in mean size computation. *the Korean Society for Cognitive and Biological Psychology* (travel award).

- ## Academic Mentoring Experience

Natalia Schmitter-Emerson – Currently a research assistant in Dartmouth College. 2025 -
Mentoring undergraduate research assistant in develop independent project on multisensory perception.

Ehigialoya Okojie – Currently a PhD student in Neuroscience at UNC Chapel Hill (Advised by Dr. Charlotte Boettiger) 2023 - 2024
Mentoring Ehi throughout post-baccalaureate Research Education Program (PREP), investigating functional connectivity between brain regions under category-selective attention and distraction condition.

Jake Ferreira – Currently a Lead Associate at Veeva Systems 2023 - 2024
Mentoring Jake with undergraduate thesis project (The Ohio State University), investigating how human visual system maintain phenomenological stability across eye movement, using a blanking paradigm (Choi et al., 2025, Cognition).

Zihan Bai – Currently a PhD student at New York University 2019 - 2022
Mentoring undergraduate thesis project (The Ohio State University), investigating the role of background scene context on object-location binding. Together, we conducted three behavioral experiments and presented the results as a poster at 2022 VSS.

• Awards & Honors

Best oral presentation at the Center for Cognitive and Behavioral Brain Imaging research day, 2023, Columbus, Ohio, USA	2023	Dec
1st award from poster presentations for a Social and Behavioral Sciences at the Edward F. Hayes Advanced Research Forum.	2023	Feb
Travel Award for a poster presentation at the Korean Society for Cognitive and Biological Psychology annual conference.	2021	Jul
Distinguished Thesis, Yonsei University	2020	Dec
Travel Award for a poster presentation at the Korean Society for Cognitive and Biological Psychology annual conference.	2019	Feb
Excellence Award in Computational Neuroscience Winter School. Korean Society for Computational Neuroscience	2018	Feb

• Scholarships / Fellowships

Annual Summer Graduate Research Award 2025 May-Aug
- Primary Advisor: Dr. Julie D. Golomb
- Visiting Advisor: Dr. Deyue (Dion) Yu

The Center for Cognitive and Brain Sciences, The Ohio State University

Graduate Student Scholarship (Graduate Student Research Excellence Award) 2023 May-Aug

Department of Psychology, The Ohio State University

Social and Behavioral Sciences (SBS) Graduate Scholarship 2022 May-Aug

College of Arts and Sciences, The Ohio State University

University Fellowship

Graduate School, The Ohio State University

Scholarship funded by Brain Korea 21+ 2019 Mar-Aug

Ministry of Education, South Korea.

Scholarship funded by Yonsei University for accelerated bachelor / master's scholarship program.	2018 - 2019

- **Service & Leadership**

Korean American Scientists and Engineers Association (KSEA), Ohio chapter, Web master	2025 -
Center for Cognitive and Behavioral Brain Imaging (CCBBI) Student Group, Technical Director.	2022 - 2023
Founding member and Vice-President of CogSci:IN, Student Society of Cognitive Science at Yonsei University	2017 - 2018
Military service obligation – Seobu Police Station, Daejeon, Republic of Korea	2013 - 2015

- **Extra-curricular Activities**

Kavli Summer Institute in Cognitive Neuroscience (Santa Barbara, CA)	2022	Jun
R workshop for psychological science (lecturer. Do-Joon Yi, Psychology department, Yonsei University)	2019	Feb
Computer Neuroscience Winter School Korean Society for Computational Neuroscience	2018	Feb
Volunteer staff in KSCS (The Korean Society for Cognitive Science) annual spring conference at Sogang University.	2013	May
